Language	English

Preferred Citation

[Identification of item], MPF.122, Century Film Productions Motion Picture Films Collection, State Archives of North Carolina, Raleigh, NC, USA.

Biographical/Historical note

Century Film Productions (AKA Century Studios; Century Films) was a Raleigh-based film studio owned and operated by O.B. (Ollie) and Lynn Garriss. O.B. - while also a cameraman for WRAL-TV - was the primary cinematographer, and his wife, Lynne, played a variety of roles from set designer to director, editing and sound to production assistant. Many of the completed films, and some of the elements, contain the Century Films Studios logo or one or both of the Garrisses listed in the credits. In other cases, proof of ownership or their contribution comes from the film containers.

O.B. Garriss died in 1997.

Collection Overview

The Century Film Productions catalog spans from the late 1950s through the early 1980s, and including completed films, production elements, and outtakes - all but two in 16mm format - numbers over 200 items. A few highlights include sponsored films for Carolina Power & Light, Occoneechee Council of the Boy Scouts of America, the North Carolina Department of Transportation with R.J. Reynolds, the U.S. Navy, and the North Carolina Police Information Network; a North Carolina State University football game; commercials for Mt. Olive Pickles and Record Bar; short films and television spots for the political ad campaigns of state governors Dan K. Moore, Terry Sanford, and Robert W. Scott, United States Representative Jim Gardner, and others. There are also important events in North Carolina history that are captured on film such as a Ku Klux Klan march from circa 1965, the Pullen Hall fire at North Carolina State University in 1965, the inauguration of James E. Holshouser, Jr., and more.

Collection Arrangement

The Century Film Productions Film Collection is arranged in nine series. Series 1-5 contain numerous film materials related to campaigns of various prominent North Carolina political figures: Hargrove "Skipper" Bowles, Jr.; United States Representative James Carson "Jim" Gardner; Governor Dan K. Moore; Governor Terry Sanford; and Governor Robert W. Scott. Series 6-8 contain film elements, and in some cases final prints, for three short-form works: "North Carolina State Fair" ; "People against Poverty" ; "Share the Ride" . Series 9 contains a variety of unique films, a majority being raw footage, but also completed works including commercials, sponsored films, and campaign material pertaining to

prominent North Carolina politicians which did not number enough to warrant a dedicated series: United States Senator B. Everett Jordan; Governor Luther Hodges; Kidd Brewer; Representative Hoyt Patrick "Pat" Taylor, Jr.; Representative James Collins "Jimmy" Green; Governor James E. Holshouser, Jr.; Governor James Baxter "Jim" Hunt, Jr.; and Thomas E. "Tom" Strickland. Other public figures in the series include U.S. President Lyndon Baines Johnson; Edgar Cayce; Jim McKay; and Perry Como.

Upon creation of the finding aid, each item was numbered with a collection number, series number, and item number.

Not all of the films in this collection are completed works, and thus may be described as follows: "film leader" (length of film--often white--on a reel preceding the credits or other imagery, which contains valuable hand-written information by the filmmakers or others); "workprint" (a work in progress, or mock-up of the final film); "outtakes" (in this context, a catch-all term for film elements that may or may have not made it into a finished film); "sound separate" (the soundtrack may be missing or listed separately); "optical sound" or "magnetic sound" (the soundtrack is located on the same piece of film as the image); various film elements such as "A-Roll" or "Narration track" are listed out separately under the title to which they relate.

Titles are taken directly from the film cans, credit sequences when present, or from notes written on the film leader, while words in brackets are added by the author for further clarification. Titles wholly in brackets are created by the author.

Due to the uniqueness of each film, they were not subjected to projection. All descriptions are based on the films' images only, even when sound is present.
